

National Child Abuse Prevention Month

**WHY DO
ZEBRAS
HAVE
STRIPES?**

**IS IT TO
CONFUSE
FLIES?**

IS IT TO CONFUSE PREDATORS?

Dr. Rubenstein
Professor of Zoology, EEB
Behavioral ecology and conservation
Princeton University

MEET THE ROBOLION

**Like us, zebras are social.
Adults protect younger
zebras from danger.**

**Like adult zebras,
there are adult people
in your community
who care for you
and keep you safe
from abuse.**

Safe adults

**What does
“abuse” mean?**

**ABUSE IS
NEVER OK**

**If you are being abused, find
a safe, trusted adult and tell
them about your situation.**

The background features two overlapping circles in a medium blue color. One circle is smaller and positioned lower and to the left, while the other is larger and positioned higher and to the right, partially overlapping the first circle.

007

Safe adults

- Do not abuse you
- Do not hurt you
- Believe in you
- Keep you safe
- Are over 18 years old

**Who are your
three safe
adults?**
